

# **AAM Investor Presentation June 2025**

### Forward-Looking Statements

In this presentation, American Axle & Manufacturing Holdings, Inc. ("AAM") makes statements concerning its and Dowlais' expectations, beliefs, plans, objectives, goals, strategies, and future events or performance, including, but not limited to, certain statements related to the ability of AAM and Dowlais to consummate AAM's business combination with Dowlais (the "Business Combination") in a timely manner or at all; future capital expenditures, expenses, revenues, economic performance, synergies, financial conditions, market growth, dividend policy, losses and future prospects and business; and management strategies and the expansion and growth of AAM's and the combined company's operations. Such statements are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995 and relate to trends and events that may affect AAM's or the combined company's future financial position and operating results. The terms such as "will," "may," "could," "would," "plan," "believe," "expect," "anticipate," "intend," "project," "target," and similar words or expressions, as well as statements in future tense, are intended to identify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. These forward-looking statements involve certain risks and uncertainties related to AAM include factors detailed in the reports AAM files with the United States Securities and Exchange Commission (the "SEC"), including those described under "Risk Factors" in its most recent Annual Report on Form 10-K and its Quarterly Reports on Form 10-Q. These forward-looking statements speak only as of the date of this communication. AAM expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in its or Dowlais' expectations

#### **Additional Information**

This presentation may be deemed to be solicitation material in respect of the Business Combination, including the issuance of AAM's shares of common stock in respect of the Business Combination. In connection with the foregoing proposed issuance of AAM's shares of common stock, AAM filed a definitive proxy statement on Schedule 14A with the SEC on June 2, 2025 (together with any amendments and supplements thereto, the "Proxy Statement"). To the extent the Business Combination is effected as a scheme of arrangement under English law (the "Scheme Document"), the issuance of AAM's shares of common stock in connection with the Business Combination would not be expected to require registration under the U.S. Securities Act of 1933, as amended (the "Securities Act"), pursuant to an exemption provided by Section 3(a)(10) under the Securities Act. In the event that AAM exercises its right to elect to implement the Business Combination by way of a takeover offer (as defined in the UK Companies Act 2006) or otherwise determines to conduct the Business Combination in a manner that is not exempt from the registration requirements of the Securities Act, AAM expects to file a registration statement with the SEC containing a prospectus with respect to the AAM's shares that would be issued in the Business Combination. INVESTORS AND SHAREHOLDERS ARE URGED TO READ THE PROXY STATEMENT, THE SCHEME DOCUMENT, AND OTHER RELEVANT DOCUMENTS FILED OR TO BE FILED BY AAM WITH THE SEC OR INCORPORATED BY REFERENCE IN THE PROXY STATEMENT (IF ANY) CAREFULLY WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT AAM, THE BUSINESS COMBINATION AND RELATED MATTERS. Investors and shareholders will be able to obtain free copies of the Proxy Statement, the Scheme Document, and other documents filed by AAM with the SEC at https://www.aam.com/investors.

### Agenda

AAM Investment Thesis

Dowlais Overview

Transformational Combination with Dowlais

### **AAM Investment Thesis**

### AAM is a Leading Global Driveline Supplier

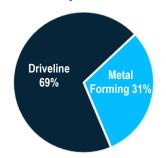

Global leader in design, engineering and manufacturing of automotive propulsion systems and technologies to support electric, hybrid and ICE vehicles

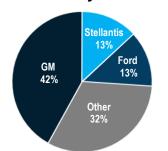

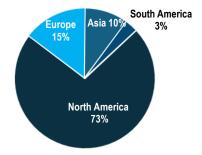

2024 Sales By Business Unit

2024 Sales By Customer

2024 Sales By Geography<sup>2</sup>

### Complementary Business Segments

Leading
Supplier to
Attractive
North
American
Pick-Up
Truck
Market

DRIVELINE 2024 SALES ≈ \$4.25B<sup>1</sup>

- Full-size Pickup Truck and SUV Driveline Systems
- AWD Systems for Crossover Vehicles
- Damped Gears, Viscous Dampers and Rubber Isolation Pulleys
- Pioneer of Disconnecting AWD Systems
- One of the leaders in hybrid and electric driveline solutions

Forged
Components
Provide
Vertical
Integration
Advantage

#### METAL FORMING 2024 SALES ≈ \$1.87B<sup>1</sup>

- Forged Gears & Shafts
- CVT Pulleys
- Powdered Metal Connecting Rods
- Aluminum Valve Bodies
- Machined Helical Gears
- Differential Assemblies
- Strong position in electrified propulsion components

(1) Represents AAM net external sales

### Global Footprint: Manufacture In-Region, For Region

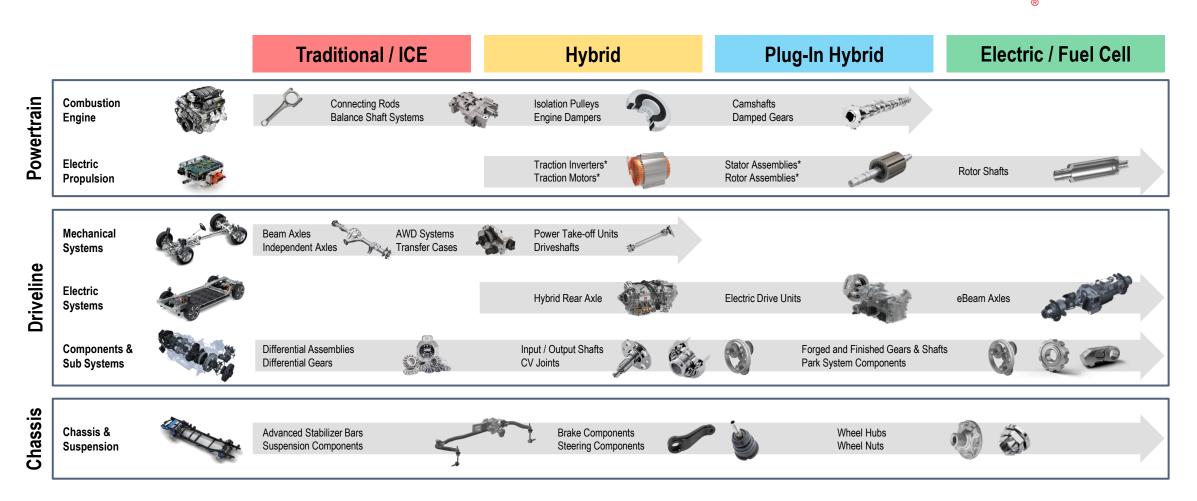

#### Sales, Engineering, and Manufacturing Support in All Major Regions

### Product Portfolio Serving All Powertrain Architectures

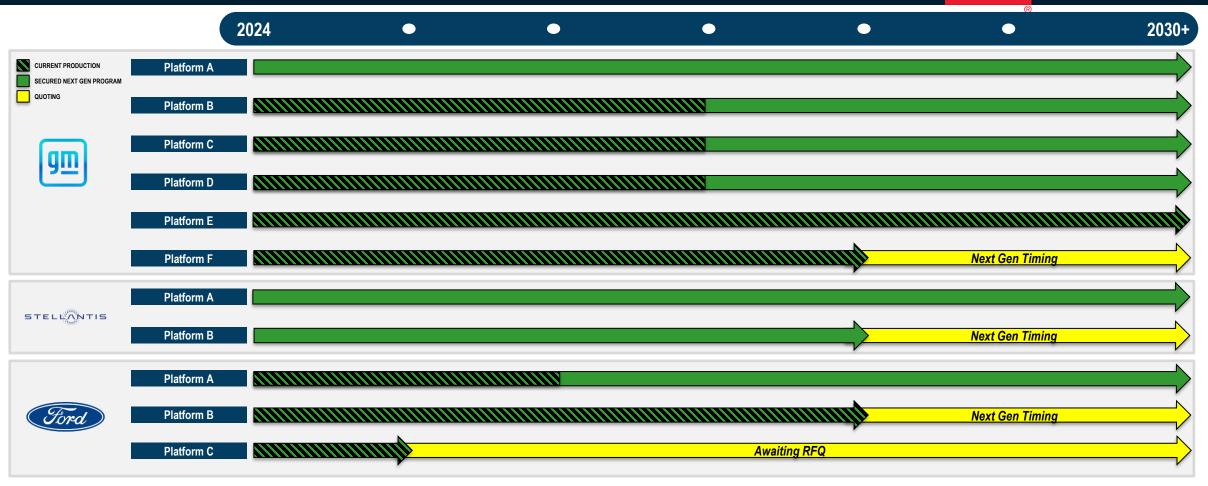

<sup>\*</sup> Not offered as individual components

#### High Revenue Visibility with Nearly All Core Vehicle Programs Secured

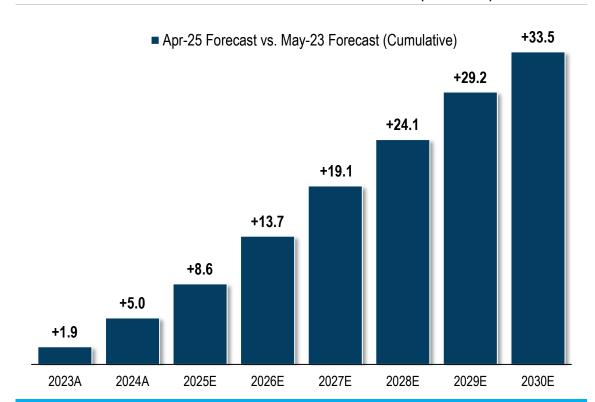

\$20B+ In Lifetime Revenues For AAM's Primary Driveline Programs Secured Through 2030+

#### ICE / Hybrid Production Forecast Now a Tailwind for AAM

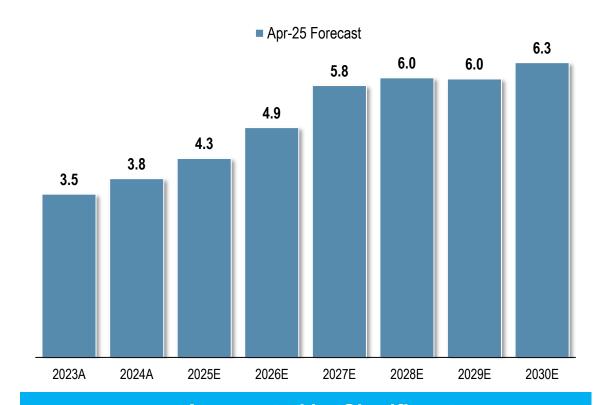

#### NORTH AMERICA & EUROPE – ICE PRODUCTION (MM UNITS)

Significant Profit Opportunity as ICE Production Estimates are Increased and Extended...

#### NORTH AMERICA & EUROPE - FULL HYBRID PRODUCTION (MM UNITS)

... Augmented by Significant
Opportunity in Hybrid Powertrains

Source: S&P Global as of April 2025

### Robust Quoting Environment

#### Reemergence of Attractive ICE / Hybrid Opportunities

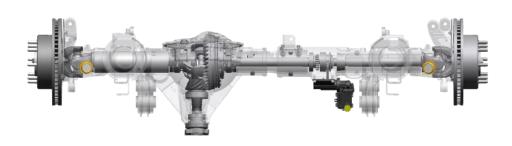

- Majority of quoting opportunities within core ICE / Hybrid products
- New business opportunities for major truck / SUV platforms in North America
- Leverage existing portfolio to support hybridization across markets

#### **EV-Select Strategy**

- Selective business pursuit
- Priority on eBeam axles to extend core business
- Focus on profitability vs. volume

#### **Maintain Flexibility**

- Supply systems and components to OEM in-house operations
- Remain open to OEM and Tier 2 motor / inverter supply
- Tailored regional strategies to align with market needs

### EV / EREV Pickup & SUV Awards

### Scout

#### **Scout Motors Electric Drive Units and E-Beam Axles**

AAM to supply front electric drive units (EDUs) and rear e-Beam axles for the muchanticipated launch of the all-new Scout Traveler SUV and Scout Terra pickup truck. These future programs are expected to begin initial production in 2027.

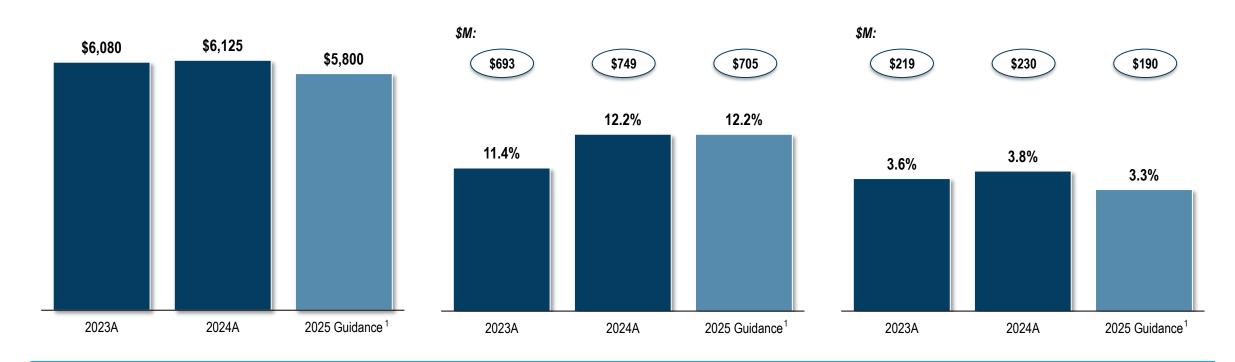

### Strong Margin Performance in Dynamic Market

#### **ADJUSTED EBITDA MARGIN (%)**

#### ADJUSTED FREE CASH FLOW MARGIN (%)

#### Focus on Execution for EBITDA Margin & Free Cash Flow Conversion

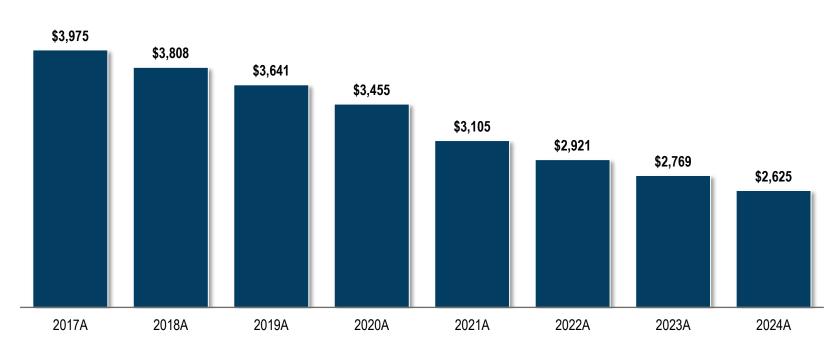

Note: For definitions of Adjusted EBITDA and Adjusted Free Cash Flow and Non-GAAP reconciliations, please see the attached appendix; (1) Midpoint of range as of May 2, 2025

In accordance with Rule 28.1(c)(i) of the Takeover Code, the AAM directors confirm that, as at the date of this presentation, the AAM FY25 Profit Forecast remains valid and has been properly compiled on the basis of the assumptions stated in the attached appendix and that the basis of accounting used is consistent with AAM's accounting policies.

### Consistent De-Leveraging Track Record

#### **Gross Debt (\$M)**

#### **Gross and Net Leverage**

Metrics	4Q 2024
Gross Debt	\$2.6B
Cash & Cash Equivalents	\$0.6B
Net Debt	\$2.1B
2024A Adj. EBITDA	\$749M
Gross Leverage	3.5x
Net Leverage	(2.8x)

#### High Cash-Flow Generation Used to Repay Debt Resulting in Strong Balance Sheet

### 2025 Financial Outlook (as of May 2, 2025)

#### **Updated 2025 Financial Targets**

Full Year Sales \$5.65 - \$5.95 billion

Adjusted EBITDA \$665 - \$745 million

Adjusted Free Cash Flow \$165 - \$215 million

These targets are based on the following assumptions for 2025:

- North American light vehicle production of 14.0 15.1 million units
- AAM's production estimates of key programs that we support
- Adjusted Free Cash Flow target assumes capital spending of approximately 5% of sales
- AAM expects restructuring cash payments to be approximately \$20 \$30 million
- AAM's outlook assumes the sale of AAM's commercial vehicle axle business in India is completed by July 1, 2025
- Does not reflect any costs and expenses relating to the announced combination with Dowlais, which will impact actual
  results. Reflects guidance for AAM on a stand-alone pre-combination basis only
- Substantially all incremental tariff costs are passed on to our customers

### AAM Standalone Investment Thesis

- Leading North American driveline supplier to light-duty truck and SUV platforms
- High revenue visibility with \$20B+ of lifetime revenues secured through 2030+
- Favorably positioned for resurging ICE / Hybrid volumes and quote activity in North America
- Consistent and improving EBITDA and free cash flow margins
- Balance sheet with proven track record of de-leveraging

Compelling Standalone Value Proposition with Potential Margin Expansion & Attractive Valuation (Current: ~40% Free Cash Flow Yield¹)

### Attractive Longstanding "China for China" Joint Venture

#### FY 2024 Key Statistics<sup>1</sup>

#### China JV Provides Balanced Portfolio Across Established & Emerging OEMs

\$M			

Revenue	\$746
---------	-------

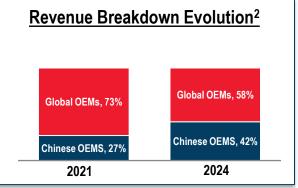

Adj. Operating Profit	\$111
% margin	15%

Net Income	\$76

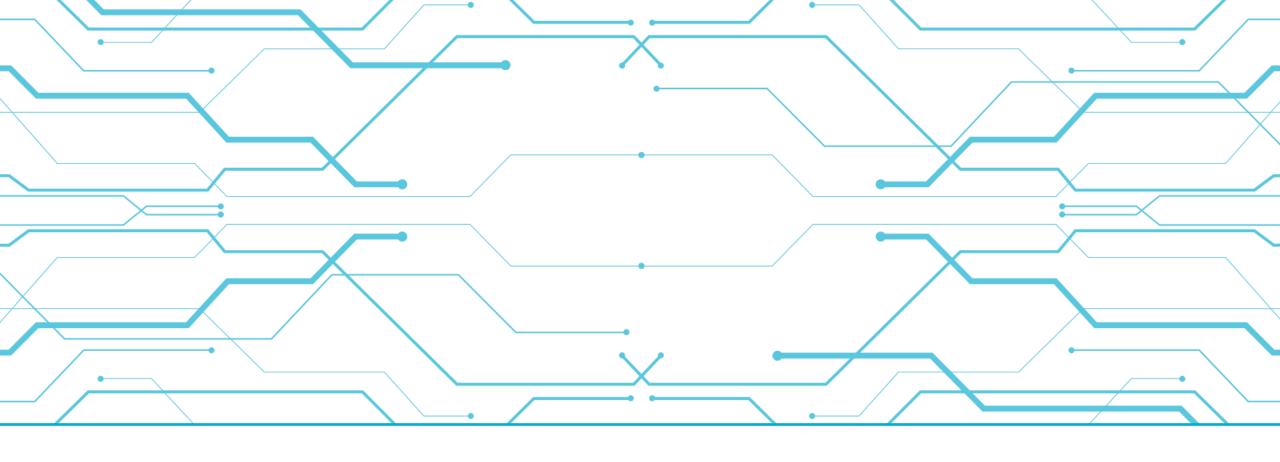

- Dowlais has an interest in a number of joint ventures globally
- Largest and most strategic joint venture is a 50% interest with HASCO
  - "SDS" founded in 1988
- 10 production sites across China
- Leading supplier of sideshafts and propshafts
- Growing share with local Chinese OEMs
- Resilient regional supply chain; China for China
- Received ~£300M in cumulative dividends from JV operations since 2020¹

#### Supplying All of the Top 10 OEMs in China

### **Transformational Combination with Dowlais**

### Transaction Summary

#### **CONSIDERATION**

- Terms of the combination represent a total implied value of 85.2 pence per Dowlais share at announcement, with each Dowlais shareholder entitled to receive for each Dowlais share held¹: 0.0881 new AAM shares, 43 pence in cash and Dowlais's FY24 final dividend of 2.8 pence which has been paid
- AAM shareholders will own approximately 51% of the combined group
- Implies a multiple of 4.1x 2023 Adjusted EBITDA and a multiple of 3.0x including synergies

### GOVERNANCE AND LEADERSHIP

- AAM Chairman and CEO David C. Dauch will lead the combined group
- At closing, two independent directors of Dowlais, Simon Mackenzie Smith and Fiona MacAulay, are expected to join the board of the combined group
- Four Dowlais executives will be invited to join the AAM executive leadership team

### APPROVALS AND EXPECTED TIMING

- The transaction is subject to shareholder and regulatory approvals as well as customary closing conditions
- Expected to close in 4Q 2025

### Compelling Strategic Combination

### + DOM//L/\IS

Creates a
leading global
driveline and

Creating a More Diversified Global Supplier Still Favorably Exposed to North America

### Improved Positioning in China

### Transaction enhances AAM's exposure to China

China production for China market

### Material Cross-Selling Opportunity

- AAM products to SDS customers
- SDS products to AAM customers

#### **Key Products**

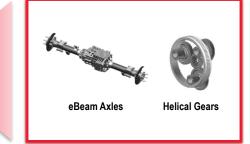

Complementary Product Portfolio with Access to Growing Domestic Customer Base

### ~\$300M of Synergy Potential

CATEGORY	DESCRIPTION
----------	-------------

SG&A

- Eliminating duplicate public company and other costs
- Optimization of the combined workforce
- Streamlining of engineering, research, and development expenses
- Elimination of duplicate business and technical offices

**Purchasing** 

- Leveraging enhanced economies of scale and spend to reduce supply costs
- Utilizing vertical integration capabilities to deliver insourcing initiatives
- Achieving global freight and logistical savings through increased scale, utilization and benefits from third-party logistics suppliers

**Operations** 

- Increasing operating efficiencies through the implementation of a best-of-best operating system
- Optimizing the combined global manufacturing footprint

~30%

~50%

~20%

#### **TIMING AND COST TO ACHIEVE**

Targeting 60% of expected annual run rate savings by the end of the second full year. Run Rate savings substantially achieved by end of the third year.

We estimate the costs required to achieve our synergy plan are approximately equal to one year of savings.

Joint plan developed to realize ~\$300M of annual run-rate cost synergies

### Robust Synergy Identification and Validation Process

## U.K. Takeover Code Rule 28 contains specific requirements regarding cost savings measures

AAM & Dowlais each appointed a global consulting firm to assist in reviewing synergy opportunities

 Quantified synergies to be supported by a report from a reporting accountant Detailed, in-person diligence sessions were conducted over multiple weeks between AAM & Dowlais management teams

 Deloitte LLP acted as AAM's reporting accountant and provided an opinion<sup>1</sup> Synergies identified across 10 workstreams using detailed cost information from both businesses and a clean team approach

### Synergy Execution

# Steering Committee CEO and combined senior leadership from AAM and Dowlais management Integration Management Office Joint leadership from AAM and Dowlais management Overarching cross-functional topics Master planning Baseline & value capture Organization, culture, and talent Communications

- ✓ Proven integration track record
- AAM exceeded synergy targets in prior acquisitions
- Mature systems and processes to drive implementation
- ✓ Global best-of-best management team structure will enhance execution

Combined Company Integration Know-How To Execute On Synergy Plan

### Substantial Free Cash Flow Generation

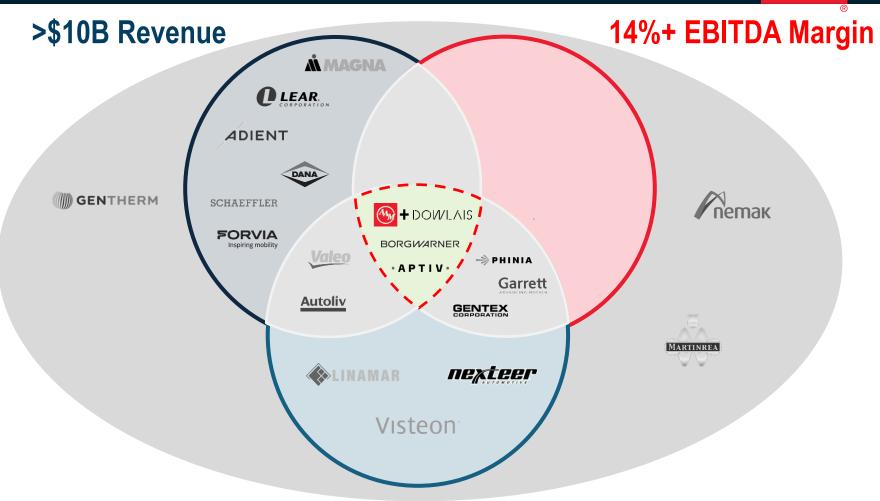

#### **Combination Enhances Cash Flow Generation**

\$M	
American Axle Adj. Free Cash Flow (2023-24A avg.)	~\$225
Dowlais Adj. Free Cash Flow (2023-24A avg.)	~\$175
Run-Rate Cash Flow from Synergies <sup>1</sup>	~\$300
Less: Interest from Incremental Financing	~(\$50)
Less: Tax Impact (Illustrative 30% rate)	~(\$75)
Combined Cash Generation Potential	~\$575
% Revenue	~5%
% Implied PF Market Cap. (FCF Yield)	~50%

## Best-in-Class Financial Metrics

~5% Adj. FCF / Sales

## Balance Sheet and Capital Allocation

### **BALANCE SHEET**

- Combination financing in place; upsized Bank Credit
   Agreement and committed Bridge Facilities
- \* \*2.2bn of new debt required to refinance existing
   Dowlais debt and fund cash purchase price
- Expect ~\$2.0bn of liquidity at closing

### CAPITAL ALLOCATION

- Support investment for organic growth
- Prioritize debt repayment until 2.5x net leverage achieved
- Targeting a more balanced capital allocation policy below 2.5x net leverage
  - Potential share repurchases or dividends

## Regulatory Update

### TIMING

- Expiration of the waiting period for the US HSR filing (submitted on February 7, 2025) satisfies one of the conditions to closing the Combination
- Initial anti-trust submissions filed in all other jurisdictions listed in the Announcement
- Ongoing engagement and progress with regulators in all jurisdictions, with several already cleared
- Anticipated timing is typical for this type of transaction

### STRATEGIC COMBINATION

Complementary product and customer portfolios

DOWLAIS

BEAM AXLES
US LIGHT TRUCK

SIDE SHAFTS GLOBAL PASSCAR & CUV

- Multiple competitors across key products / geographies
- Synergies drive competitive cost base and free cash flow to support product development
- Customer feedback has been supportive

### **Expect Regulatory Approval and Closing in 4Q 2025**

## Transformational Opportunity to Combine with Dowlais

- More robust, and scaled business model with compelling strategic rationale
- Broader, more complete powertrain agnostic portfolio with enhanced diversification
- High confidence in delivering ~\$300M of jointly developed and vetted synergies creates shareholder value
- Strong, experienced and blended management team with proven track record
- Significant margin and earnings accretion with best-in-class financial metrics and enhanced growth potential
- High free cash flow generation allows for more balanced future capital allocation at net leverage below 2.5x

Even Stronger Combined Value Proposition with Implied ~50% Free Cash Flow Yield<sup>1</sup>

# **Appendix**

### **Participants in the Solicitation**

AAM and its directors, executive officers and certain other members of management and employees will be participants in the solicitation of proxies from AAM's shareholders in respect of the Business Combination, including the proposed issuance of AAM's shares of common stock in connection with the Business Combination. Information regarding AAM's directors and executive officers is contained in its Annual Report on Form 10-K for the fiscal year ended December 31, 2024, which was filed with the SEC on February 14, 2025, the definitive proxy statement on Schedule 14A for AAM's 2025 annual meeting of stockholders, which was filed with the SEC on March 20, 2025, the Current Report on Form 8-K of AAM, which was filed with the SEC on May 2, 2025 (SEC Accession No. 0001062231-25-000064). Additional information regarding the identity of participants, and their direct or indirect interests, by security holdings or otherwise, is set forth in the Proxy Statement. To the extent holdings of AAM's securities by its directors or executive officers change from the amounts set forth in the Proxy Statement, such changes will be reflected on Initial Statements of Beneficial Ownership on Form 3 or Statements of Change in Ownership on Form 4 filed with the SEC by AAM. These documents may be obtained free of charge from the SEC's website at www.sec.gov and AAM's website at https://www.aam.com/investors.

### No Offer or Solicitation

This presentation is not intended to and shall not constitute an offer to sell or the solicitation of an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote of approval, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

#### **Non-GAAP Financial Information**

This presentation refers to certain financial measures, including Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Earnings per Share, Adjusted Free Cash Flow, Net Debt, Net Leverage Ratio and Liquidity that are not required by, or presented in accordance with, accounting principles generally accepted in the United States, or GAAP. These measures are presented to provide additional useful measurements to review AAM's operations, provide transparency to investors and enable period-to-period comparability of financial performance. These non-GAAP measures should not be considered a substitute for any GAAP measure. Additionally, non-GAAP financial measures as presented by AAM may not be comparable to similarly titled measures reported by other companies.

#### **Quantified Financial Benefits Statement**

This presentation contains statements of estimated cost savings and synergies arising from the Combination (together, the "Quantified Financial Benefits Statements").

Statements of estimated cost savings and synergies relate to future actions and circumstances which, by their nature, involve risks, uncertainties and contingencies. As a result, the cost savings and synergies referred to in the Quantified Financial Benefits Statement may not be achieved, may be achieved later or sooner than estimated, or those achieved could be materially different from those estimated. No statement in the Quantified Financial Benefits Statement, or this presentation generally, should be construed as a profit forecast or interpreted to mean that the combined company's earnings in the first full year following the date on which the Combination becomes effective, or in any subsequent period, would necessarily match or be greater than or be less than those of AAM or Dowlais for the relevant preceding financial period or any other period. For the purposes of Rule 28 of the Code, the Quantified Financial Benefits Statement contained in this presentation is the responsibility of AAM and the AAM Directors.

A copy of the Quantified Financial Benefits Statements, the bases of belief, principal assumptions and sources of information in respect of any quantified financial benefits statement are set out in appendix 6 of the Rule 2.7 announcement made by AAM and Dowlais on January 29, 2025. On May 16, 2025, the AAM board confirmed that it continues to believe that the combined group should be able to achieve the synergies set out in the Quantified Financial Benefits Statement.

#### Profit forecasts and estimates

The statements in this presentation setting out targets for Adjusted EBITDA and Adjusted free cash flow of AAM for FY25 (together, the "AAM FY25 Profit Forecast") constitute profit forecasts of AAM for the purposes of Rule 28.1(a) of the UK Takeover Code (Takeover Code). The UK Takeover Panel has granted AAM a dispensation from the requirement to include reports from reporting accountants and AAM's financial advisers in relation to the FY25 Profit Forecast because it is an ordinary course profit forecast and Dowlais has agreed to the dispensation.

Other than the AAM FY25 Profit Forecast, nothing in this presentation (including any statement of estimated cost savings or synergies) is intended, or is to be construed, as a profit forecast or profit estimate for any period or is to be interpreted to mean that earnings or earnings per share of AAM or Dowlais for the current or future financial years will necessarily match or exceed the published earnings or earnings per share of AAM or Dowlais, as appropriate.

#### **AAM directors' confirmations**

In accordance with Rule 28.1(c)(i) of the Takeover Code, the AAM directors confirm that, as at the date of this presentation, the AAM FY25 Profit Forecast remains valid and has been properly compiled on the basis of the assumptions stated below and that the basis of accounting used is consistent with AAM's accounting policies.

### **Basis of preparation**

The AAM FY25 Profit Forecast is based on AAM's current internal forecast for the period up to 31 December 2025, using economic assumptions as at 2 May 2025. The basis of accounting used for the AAM FY25 Profit Forecast is consistent with AAM's existing accounting policies, which: (i) are in accordance with U.S. GAAP; (ii) were applied in the preparation of the AAM's financial statements for the year ending 31 December 2024; and (iii) are expected to be applied in the preparation of the AAM's financial statements for the period up to 31 December 2025.

The AAM FY25 Profit Forecast has been prepared on the basis referred to above and subject to the principal assumptions set out below. The AAM FY25 Profit Forecast is inherently uncertain and there can be no guarantee that any of the factors referred to under "Principal assumptions" below will not occur and/or, if they do, their effect on AAM's results of operations, financial condition, or financial performance, may be material. The AAM FY25 Profit Forecast should therefore be read in this context and construed accordingly.

### **Principal assumptions**

- a) Factors outside the influence or control of the AAM Directors:
  - i. there will be no material change to macroeconomic, political, inflationary, regulatory or legal conditions in the markets or regions in which AAM operates;
  - ii. there will be no material change in current US interest rates, economic growth (GDP), inflation expectations or foreign exchange rates compared with AAM's estimates;
  - iii. there will be no material change in accounting standards;
  - iv. there will be no material change in market conditions in relation to customer demand or the competitive environment;
  - v. there will be no material litigation or regulatory investigations, or material unexpected developments in any existing litigation or regulatory investigation, in relation to any of AAM's operations, products or services; and
  - vi. there will be no business disruptions that materially affect AAM, its customers, operations, supply chain or labour supply, including natural disasters, acts of terrorism, cyberattack and/or technological issues.
- b) Factors within the influence or control of the AAM Directors:
  - there will be no material acquisitions, disposals, distribution partnerships, joint ventures or other commercial agreements, other than those already assumed within the forecast;
  - ii. there will be no material change in the existing operational strategy of AAM;
  - iii. there will be no material changes in AAM's accounting policies and/or the application thereof;
  - iv. there are no material strategic investments or capital expenditure in addition to those already planned; and
  - v. there will be no material change in the management or control of AAM.

#### **Publication on website**

A copy of this presentation will be made available (subject to certain disclaimers) on AAM's website (at https://www.aam.com/investors) by no later than 12 noon London time on the business day following the date of this presentation. Neither the contents of this website nor the content of any other website accessible from hyperlinks on such websites is incorporated into, or forms part of, this presentation.

## Reconciliation of Non-GAAP Measures

In addition to the results reported in accordance with accounting principles generally accepted in the United States of America (GAAP) included within this presentation, we have provided certain information, which includes non-GAAP financial measures. Such information is reconciled to its closest GAAP measure in accordance with Securities and Exchange Commission rules and is included in the following slides.

Certain of the forward-looking financial measures included in this earnings release are provided on a non-GAAP basis. A reconciliation of non-GAAP forward-looking financial measures to the most directly comparable forward-looking financial measures calculated and presented in accordance with GAAP has been provided. The amounts in these reconciliations are based on our current estimates and actual results may differ materially from these forward-looking estimates for many reasons, including potential event driven transactional and other non-core operating items and their related effects in any future period, the magnitude of which may be significant.

## Definition of Non-GAAP Measures

#### **AAM EBITDA and Adjusted EBITDA**

We define EBITDA to be earnings before interest expense, income taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA excluding the impact of restructuring and acquisition-related costs, debt refinancing and redemption costs, gains or losses on equity securities, pension curtailment and settlement charges, impairment charges and non-recurring items. We believe that EBITDA and Adjusted EBITDA are meaningful measures of performance as they are commonly utilized by management and investors to analyze operating performance and entity valuation. Our management, the investment community and the banking institutions routinely use EBITDA and Adjusted EBITDA, together with other measures, to measure our operating performance relative to other Tier 1 automotive suppliers. We also use Segment Adjusted EBITDA as the measure of earnings to assess the performance of each segment and determine the resources to be allocated to the segments. EBITDA and Adjusted EBITDA are also key metrics used in our calculation of incentive compensation. EBITDA and Adjusted EBITDA should not be construed as income from operations, net income or cash flow from operating activities as determined under GAAP. Other companies may calculate EBITDA and Adjusted EBITDA differently.

#### **AAM Adjusted Earnings (Loss) Per Share**

We define Adjusted earnings (loss) per share to be diluted earnings (loss) per share excluding the impact of restructuring and acquisition-related costs, debt refinancing and redemption costs, gains or losses on equity securities, pension curtailment and settlement charges, impairment charges and non-recurring items, including the tax effect thereon. We believe Adjusted earnings (loss) per share is a meaningful measure as it is commonly utilized by management and investors in assessing ongoing financial performance that provides improved comparability between periods through the exclusion of certain items that management believes are not indicative of core operating performance and which may obscure underlying business results and trends. Other companies may calculate Adjusted earnings (loss) per share differently.

#### **AAM Free Cash Flow and Adjusted Free Cash Flow**

We define free cash flow to be net cash provided by operating activities less capital expenditures net of proceeds from the sale of property, plant and equipment and government grants. Adjusted free cash flow is defined as free cash flow excluding the impact of cash payments for restructuring and acquisition-related costs and cash payments related to the Malvern fire, including payments for capital expenditures, net of recoveries. We believe free cash flow and Adjusted free cash flow are meaningful measures as they are commonly utilized by management and investors to assess our ability to generate cash flow from business operations to repay debt and return capital to our stockholders. Free cash flow and Adjusted free cash flow are also key metrics used in our calculation of incentive compensation. Other companies may calculate free cash flow and Adjusted free cash flow differently.

#### **AAM Net Debt and Net Leverage Ratio**

We define net debt to be total debt, net less cash and cash equivalents. We define Net Leverage Ratio to be net debt divided by the trailing 12 months of Adjusted EBITDA. We believe that Net Leverage Ratio is a meaningful measure of financial condition as it is commonly used by management, investors and creditors to assess capital structure risk. Other companies may calculate Net Leverage Ratio differently.

#### **AAM Liquidity**

We define Liquidity as cash on hand plus amounts available on our revolving credit facility and non-U.S. credit facilities.

#### **Dowlais Adjusted EBITDA**

Dowlais defines Adjusted EBITDA as Adjusted operating profit after adding back depreciation and impairment of PP&E and amortisation of computer software and development costs.
